**Background**

The Albany County Comptroller’s Office performed an audit of Occupancy Tax records related to tax collected by hotels and motels within the County. New York State and Local Laws<sup>1</sup> grant Albany County the authority<sup>2</sup> to impose and collect taxes on occupancy of hotel and motel rooms in Albany County and provides for the structure for the distribution of the funds collected. Occupancy tax collected equals six percent (6%) of the per diem rental rate charged to occupants for each hotel or motel room. The whole of the monies collected are distributed as follows:

- Albany Convention Center Authority Fund – 50%
- Times Union Center (Civic Center) Debt Service Fund. – 33%
- Albany County Convention and Visitors Bureau – 17%
  - Up to ten percent of this amount is retained by Albany County to offset the administrative expenses related to the occupancy tax.

A penalty is imposed for the late filing of a quarterly return in the amount of five percent of the total amount owed for the first month past due. <sup>2</sup> Authority is granted for a term of two years and must be renewed by resolution through the Albany County Legislature.

additional month past due. During the second month past due, a notice will be delivered stating that the operator must file the past due return (with payment) within 30 days to avoid the issuance of a warrant and lien against the property. Additional penalties are imposed for misclassification of exempt revenue in the amount of five percent of the amount owed as a result of the misclassification and one percent per month charged back to the date the original return and payment was due. Specific and flat rate fines are imposed in the amount of one thousand dollars for the following issues as observed during the audit process:

- Non-compliance with audit in terms of scheduling and participation with auditors
- Failure to have tax certificate displayed in the appropriate manner as required by law
- Operating an unregistered hotel or motel

### **Objectives**

- Confirm that the hotel or motel is registered and is in compliance with tax certificate display requirements;
- Determine whether operator has accurately classified exempt and non-exempt revenue;
- Ensure that records provided related to exempt revenue are substantiated with appropriate documentation; and
- Determine amount of late fees, penalties and fines to be assessed, if any.

### **Scope**

The scope of this audit includes all hotels and motels located and operating in Albany County that have 25 or more rooms. The Occupancy Tax Audit is performed twice annually and in total generally reviews between 30 and 40 of the existing locations. Locations are selected for audit on a two year rotating basis. Any location observed to be in noncompliance is reviewed as part of subsequent audits continuously until compliance is established and verified, as such the total number of locations audited varies from year to year.

Audit work was substantially completed on October 14, 2022.

### **Approach**

To accomplish these objectives the DAC performed the following:

- Schedule site visit with hotel or motel operators;
- Perform reconciliation of physical records provided against quarterly returns filed with the Albany County Department of Finance;
- Review sample of documentation provided to support exempt revenue;

- Issue an invoice for any and all late fees, penalties and fines imposed.

### **Observations**

No observations were noted during this audit.

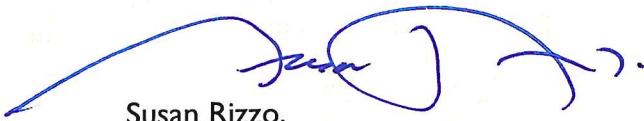

### **Conclusion**

The DAC performed the hotel occupancy tax audit at a total of 7 locations. The auditors reviewed records for taxable room sales of \$4,374,000 which generated \$262,440 in Occupancy Tax.

One hotel that was scheduled to be reviewed remained closed due to COVID and as a result was not available for audit was added to the list for the Spring 2023.

Additionally, it was noted in the previous report that the Comptroller's Office observed, outside the scope of this audit, one hotel is currently in arrears of occupancy tax payments for the past eight quarters (two years). This hotel has been permanently shut down and will potentially be listed for sale in the near future. Based on communication with Department of Finance this issue has been resolved, the occupancy tax obligation in arrears has been extinguished.

I would like to thank all participating hotels for their cooperation with our audit team in performing this review.
